193	**40**	**100.0%**	**83.7%**

How this target was worked out

Every number comes from the ICC Standard Edition resource table, ball by ball.

1. Team 1 starts with 50 overs and 10 wickets: 100.0% of resources.
2. Team 1 resources, R1 = 100.0%.
3. Team 2 starts with 50 overs and 10 wickets: 100.0% of resources.
4. Team 2 stoppage at 30 overs, 4 down: 20 overs left = 44.6%. After losing 10 overs, 10 left = 28.3%. Resources lost: 16.3%.
5. Team 2 resources, R2 = 83.7%.
6. R2 is not more than R1, so par = 231 × 83.7 ÷ 100.0 = 193.35, rounded down to 193. Target = 193 + 1 = 194.
